USER MANUAL

PLEASE READ AND RETAIN THESE INSTRUCTIONS FOR FUTURE REFERENCE
GETTING STARTED WITH YOUR COMPUTER

Included in the box:
• Connex L1440 14inch Laptop
• Power adaptor
• Instruction manual
• Warranty card
• Hard drive installation guide

Note:
Before using your computer for the first time, please charge it for at least four hours. After that, you can recharge the battery as needed.

# USING THE KEYBOARD

The keyboard has full-sized keys and a separate cursor, Windows function and special keys.

## HOTKEYS

The computer employs hotkeys or key combinations to access most of the computer’s controls like screen brightness and volume output. To activate hotkeys, press and hold the `<Fn>` key before pressing the other key in the hotkey combination.

TOUCHPAD

Touchpad basics:
The touchpad controls the arrow (or ‘cursor’) on the screen. As you slide your finger across the touchpad, the cursor will follow this movement.

The cursor is controlled by some basic gestures:

- **Single-finger slide**: Slide a finger across the touchpad to move the cursor.

- **Single-finger press or tap**: Press the touchpad down, or lightly tap the touchpad with your finger to perform a ‘click’, which will select or start an item. Quickly repeat the tap to perform a double tap or ‘double click’.

- **Single-finger press in the bottom-right corner**: Press the bottom right corner of the touchpad to perform a ‘right click’. In the Start screen, this will toggle the apps commands, in most apps this will open a context menu related to the selected item.
Drag: Press and hold the bottom left corner of the touchpad, or tap twice anywhere on the touchpad, then slide a second finger across the touchpad to select all items in an area.

**TOUCHPAD GESTURES**

Windows 10 and many applications support touchpad gestures that use one or more fingers.

**Note:**
Support for touchpad gestures depends on the active application.

This allows you to control applications with a few simple gestures, such as:

**Two-finger slide:** Swiftly scroll through web pages, documents and play lists by placing two fingers on the touchpad and moving both in any direction.

**Two-finger pinch:** Zoom in and out of photos, maps and documents with a simple finger-and-thumb gesture.
MINI HDMI

HDMI is a high-quality, digital audio/video interface. HDMI allows you to connect your laptop to any compatible video monitor, such as a television or projector. A separate Mini HDMI cable is required for this function.

USING BATTERY POWER

The computer uses an embedded rechargeable Lithium battery.

Note:
Typical running time on a full battery is 5 hours. Computer battery life varies, depending on power management settings, programs running on the computer, display brightness, external devices connected to the computer, and other factors.
CHARGING THE BATTERY

The battery is recharged whenever you connect the computer to the AC adapter (supplied). Your computer supports charge-in-use, enabling you to recharge the battery while you continue to operate the computer.

ADDING A HDD/SSD TO YOUR LAPTOP

PLEASE NOTE:
Installing and setting up the hard drive requires a level of expertise. We recommend taking your laptop to your service provider should you want to fit an optional hard drive.

1. Ensure that your laptop is unplugged from the power supply.
2. Turn off your laptop.
3. Turn the laptop upside down and lay on a smooth and flat surface to avoid damaging the top of your laptop.
4. Unscrew the locking screw as shown below:
5. Remove the HDD/SSD bay cover as shown below:

6. Correctly align and insert the HDD/SSD as shown below:

Ensure that the pins are correctly lined up with the socket to avoid damage.
7. Gently but firmly push the hard drive so that the pins are fully inserted into the socket.
8. Insert and clip the HDD/SSD bay cover shut and screw the locking screw back in place to secure the HDD/SSD as shown below:
STEPS TO INSTALL A HDD/SSD TO YOUR LAPTOP

PLEASE NOTE:
Take extreme caution so as not to select the already installed hard drive (C:) to avoid losing all your data. If you are unsure about this procedure, contact your service provider. Incorrect formatting could damage or remove your Windows installation.

**Step 1:** Open Disk Management.
**Step 2:** Right-click ‘Unallocated’ (or ‘Free space’) and choose ‘New Simple Volume’ in the context menu to continue.
**Step 3:** Choose ‘Next’ in the ‘New Simple Volume Wizard’ window.

**Step 4:** Specify a volume size that is between the offered maximum and minimum sizes, and then click ‘Next’.
**Step 5:** Assign a drive letter to the new hard drive and tap ‘Next’.

**Tip:** The default drive letter assigned to the new partition is ‘E’.

**Step 6:** Tap ‘Next’ to continue formatting this hard drive.
Step 7: Hit ‘Finish’ to complete hard drive addition and exit the wizard.

The HDD/SSD is now ready to be used.
TAKING CARE OF YOUR COMPUTER

Your computer will serve you well if you take care of it.

- Do not expose the computer to direct sunlight. Do not place it near sources of heat, such as a radiator or heater.
- Do not expose the computer to temperatures below 0°C or above 50°C.
- Do not subject the computer to magnetic fields.
- Do not expose the computer to rain or moisture.
- Do not spill water or any liquid on the computer.
- Do not subject the computer to heavy shock or vibration.
- Do not expose the computer to dust or dirt.
- Never place objects on top of the computer.
- Do not slam the computer display when you close it.
- Never place the computer on uneven surfaces.

CLEANING THE DISPLAY

IMPORTANT:
To prevent permanent damage to the computer, never spray water, cleaning fluids, or chemicals on the display screen.

To remove smudges and dust, frequently clean the display screen with a soft damp, lint-free cloth. If the screen requires additional cleaning, use wipes made specifically for cleaning screens and screen cleaner.
SPECIFICATIONS

Performance:
• Intel® Celeron® N3350 Dual Core 2.4 GHz
• Intel HD Graphics integrated
• System memory:
  • 2GB of DDR3 RAM
  • 32GB eMMc flash memory (expandable up to 128GB via micro SD card)
  • Windows 10

Display:
• 14 inch
• 1366 x 768 full HD display

Multimedia:
• Built-in stereo speakers
• Built-in microphone
• Built-in mini HDMI port
• Built-in 3.5mm input/output socket

Supported formats:

**USB connector:**
- 2 x USB 2.0 ports
- 1 x USB 3.0 port

**Power:**
- DC power-in (5V, 2.5A)

**Connectivity:**
- 802.11b/g/n wireless LAN
- Bluetooth 4.0
- RJ45 port

**Camera:**
- Front camera: 0.3 Megapixel

**Expansion:**
- MicroSD card up to 128GB (SDHC & SDXC compatible)
- SATA 7mm hard drive bay

**Hard drive compatibility:**
- SATA hard drive 2.5” spindle type up to 1 TB 5400 or 7200 rpm or SSD up to 256GB
- 7mm thickness

**Battery:**
- 2x5000mAh 7.4V Li-ion rechargeable battery pack
SAFETY INSTRUCTIONS

Product servicing:
Do not attempt to service this product yourself, as opening or removing covers may expose you to dangerous voltage points or other risks. Refer all servicing to qualified service personnel. Unplug this product from the wall outlet and refer servicing to qualified service personnel when:

- The power cord or plug is damaged, cut or frayed.
- Liquid was spilled into the product.
- The product was exposed to rain or water.
- The product has been dropped or the case has been damaged.

ENVIRONMENTALLY FRIENDLY DISPOSAL

Do not dispose of electrical appliances as unsorted municipal waste, use separate collection facilities. Contact your local government for information regarding the collection systems available.

If electrical appliances are disposed of in landfills or dumps, hazardous substances can leak into the groundwater and get into the food chain, damaging your health and wellbeing.
